Trail Valley Creek Contact info

SAT PHONE NUMBER (MARSH TVC): 8816-3263-7359

Wilfrid Laurier University

519-884-0710

Emergency contact information

Hierarchy of contact devices

1. Satellite internet communication (daily check-in/communication)
2. Spot Device (for daily check-in)
3. InReach communication device (for message updates only)
4. Satellite phone (for calls and emergency purposes)

Devices equipped with SOS emergency ability

1. SPOT device SOS
2. InReach SOS device
3. Satellite Phone (SOS button and phone call)

In case of emergency

1. Remain Calm
2. Have someone trained in First Aid stabilize the patient. Direct someone to call emergency services if situation/ scenario deemed serious
3. Using the SAT phone, dial emergency services at the Beaufort –Delta Hospital
 - a. Emergency Response Satellite Phone: **011-8816-316-54822**
 - b. Main Phone switchboard: **867-777-8000**

Provide a detailed description of the situation, number of persons involved, suspected injuries, vital signs etc. Provide exact GPS coordinated for helicopter medivac.

4. Only in an **absolute emergency** do you use an **SOS** signal on one of the above listed devices. This will contact Search and Rescue directly.
5. Once emergency services are contacted, contact 1) Philip Marsh, 2) Branden Walker, 3) Alex MacLean, or 4) Jennifer Baltzer and update them on the situation
6. Wait for emergency services to arrive. Make your location known as clearly as possible
7. Contact PCSP (Resolute) and ARI (Inuvik) to provide situational updates
8. Contact appropriate secondary emergency contacts

****Helicopter medivacs will often not have room for passengers. It is then up to the operation field chief to decide whether or not everyone in camp must leave on a following flight. However, in serious cases someone should travel to the hospital to watch over the patient and contact emergency contacts on their behalf****
